

How to configure Selenium & IE11

niedziela, 10 maja 2020 18:12

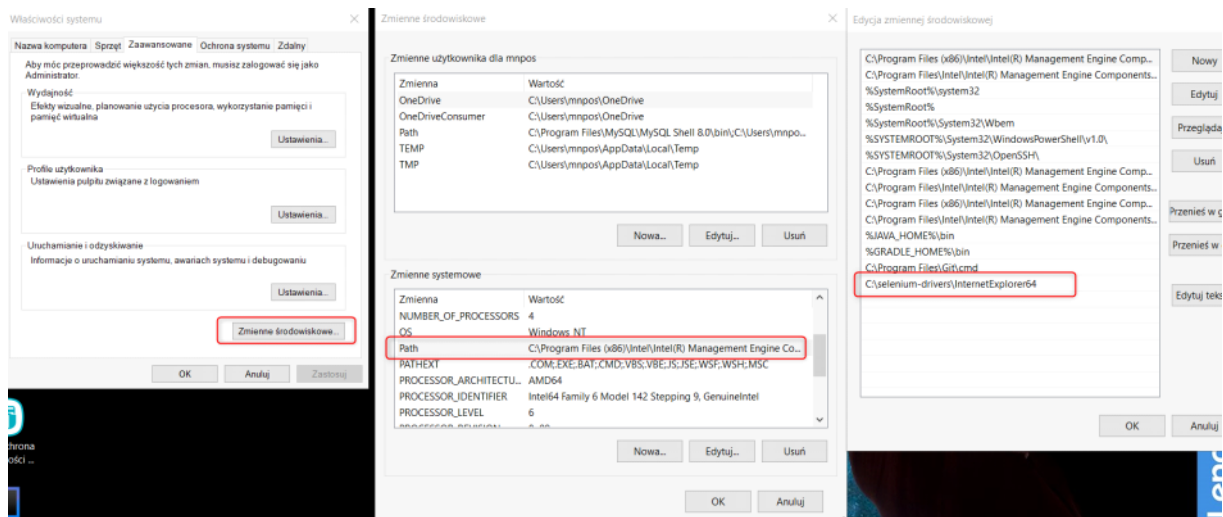

1. Go to <https://www.selenium.dev/downloads/> and download **The Internet Explorer Driver Server**.

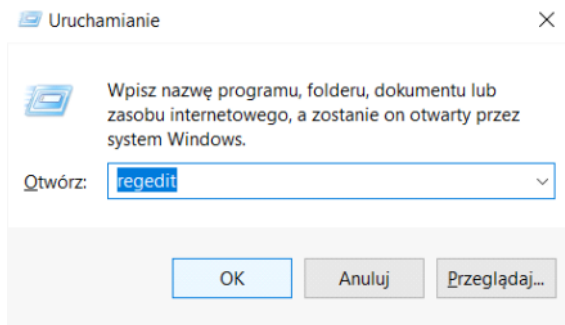

2. Unpack it under specific path f.e. C:\selenium-drivers\InternetExplorer64

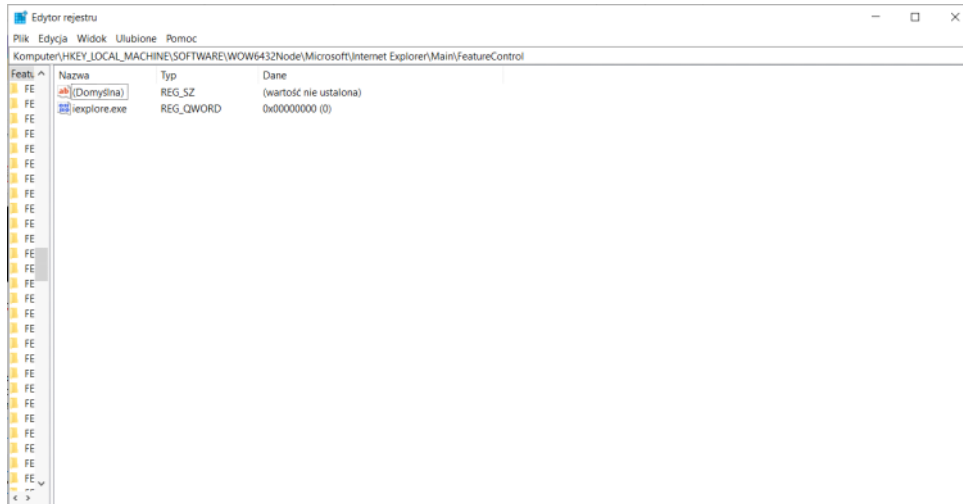

3. Add the path to **PATH** section in **Environment Variables**.

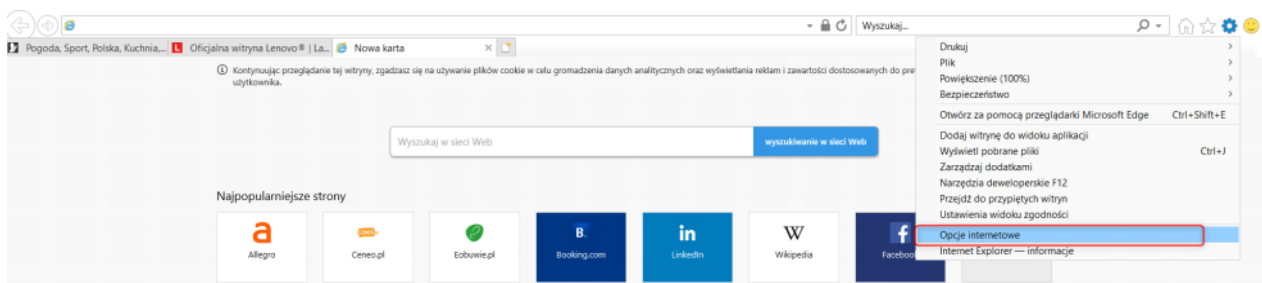

4. Open **Registry Editor** (windows + r and enter "regedit")

5. Go to location **HKEY_LOCAL_MACHINE\SOFTWARE\Wow6432Node\Microsoft\Internet Explorer\Main\FeatureControl**. Right click on the panel and add new **DWORD** value named **ieexplore.exe** with the value of 0

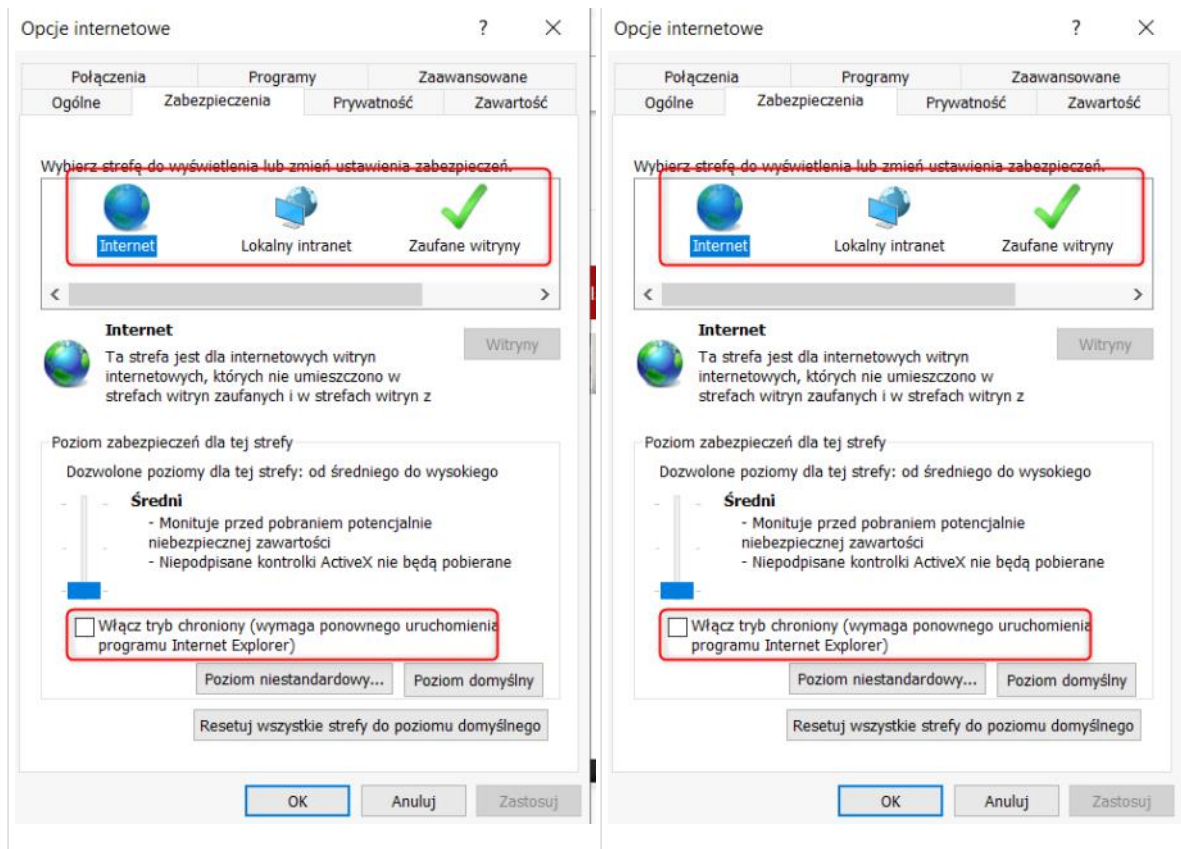

6. Go to **Internet Explorer** and go to **Tools Panel**.

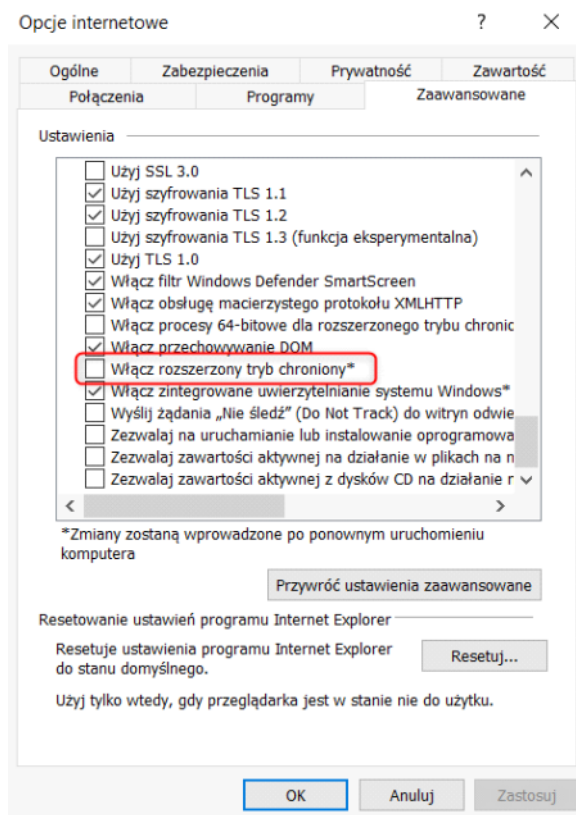

7. Uncheck "**Privacy Mode**" checkbox for each zone.

8. Remove the selection from the checkbox "**Enable Enhanced Protected Mode***" as below .

9. In Internet Explorer set **Zoom level** to 100%.
